Research projects and theses in Biotechnology and Technical Chemistry at Hochschule Darmstadt

The Department of Chemistry and Biotechnology at Darmstadt University of Applied Sciences invites students for research projects and bachelor and master theses in the following areas:

Research Area	Contact
Nanotechnology	Prof. Dr. C. Graf christina.graf@h-da.de
Drug Development	Prof. Dr. F.-J. Meyer-Almes franz-josef.meyer-almes@h-da.de https://fbc.h-da.de/index.php?id=13613
Drug Discovery	Prof. Dr. M. Becker michael.becker@h-da.de
Protein Engineering	Prof. Dr. H. Neumann heinz.neumann@h-da.de https://www.researchgate.net/profile/Heinz-Neumann
Micro Process Technology	Prof. Dr. F. Schael frank.schael@h-da.de
Energy Recovery Process Technology	Prof. Dr. M. Stumpf matthias.stumpf@h-da.de

For more information on specific projects, please get in touch with the contacts listed in the above table. The scope and schedule are then individually coordinated.
