

## Students are at the centre of EUT+

## Europe has a strong vision to share

Through the unprecedented alliance of eight technological universities, we have the ambition to build a new European model of education:

- + An inclusive and diverse model that helps every student to define one's own role in society.
- + A model that delivers a high-level scientific education & research that allows everyone to achieve excellence through a long-term education.
- + A model that raises technological responsible citizens, and that gives its students the ability to act for a better world.

## How do we as students benefit from EUT+?

Thanks to EUT+, it will be easier to spend part of one's studies abroad, and recognition of achievements there will be facilitated. During their time abroad, students acquire language skills and intercultural competencies that are important for an increasingly international job market. In the medium term, a European degree will also become a unique selling point.

**9 CAMPUSES, 1 EUROPEAN UNIVERSITY, 1 DEGREE**

### The EUT+ European degrees

- + a recognised qualification for the labour market
- + a European network of peers
- + intellectual and cultural curiosity
- + open-mindedness and civic values.

The European degrees are the backbone of EUT+. Harmonisation will take place progressively at all levels (Bachelor, Master, PhD) and will cover all fields of study: networks and telecommunications, mechanical engineering, materials, information systems, sustainable development, architecture...

As highlighted in the Mission Statement, increasing the place of Humanities and Social Sciences is fully in line with our values. We will expand the know-how throughout our campuses and promote a pluridisciplinary approach whereby Humanities and Social Sciences are embedded in the technological curricula rather than being independent stand-alone courses.

## I am interested in an exchange semester at one of the partner universities.

Student mobility within EUT+ is funded through the Erasmus+ mobility grant. The Erasmus+ programme offers you participation for a total of 12 months per study cycle (Bachelor and Master) or 24 months for diploma programmes. The departmental coordinators in your department and the International Office will provide you detailed information and support. Further information can also be found here:

## EUT+ Students Board

The Student Board is composed of 16 students, 2 per university. The Student Board is the official advocate for the interest of all students from all universities of the EUT+. It is the role of the Student Board to act as a bridge between the students and the Governing Board/Steering Committee. The student representative for h\_da is Elias Wenz.

ONE GOAL**

## Teaching projects, research labs and strategic partnerships

More and more exciting collaborations are emerging that are directly integrated into the course of study.

**A few examples:**

+ the intercultural blog **DACADU**

**Sabine Kasten**[sabine.kasten@h-da.de](mailto:sabine.kasten@h-da.de)**Dr. Stefanie Morgret**[stefanie.morgret@h-da.de](mailto:stefanie.morgret@h-da.de)

+ Courses offered within EUT+ are designed for all students at h\_da. You can also attend courses and learning projects offered by our seven partner universities. Scan the QR code to see all the courses and projects.

+ GET\_INVolved Germany – in-depth collaboration between FAIR/GSI and EUT+ (research stays, lectures and internships for engineers, students in Natural Sciences and others)

**Dr. Pradeep Ghosh**[pradeep.ghosh@fair-center.eu](mailto:pradeep.ghosh@fair-center.eu)

+ The European Space Agency (ESA) and the European Space Operation Centre (ESOC) intend to establish a collaboration with EUT+ in the fields of Cyber Security, AI and Life-cycle assessment.

## Buddy Program

We are looking for students that would like to help international students from our EUT+ partner universities. The goal of the Buddy Program is to pair up local students with newly enrolled international students who are about to start their studies in Darmstadt or Dieburg.

For this, each international student („incoming buddy“) will be assigned a local student („welcome buddy“) for one semester.

**International Office**[buddy@h-da.de](mailto:buddy@h-da.de)
